December 3, 2014

To the Citizens of the City of Dublin; Honorable Phil Best, Mayor; and Distinguished Members of City Council

State law requires that all general-purpose local governments publish within six months of the close of each fiscal year a complete set of financial statements presented in conformity with generally accepted accounting principles (GAAP) and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants. Pursuant to that requirement, we hereby issue the comprehensive annual financial report of the City of Dublin, Georgia for the fiscal year ended June 30, 2014.

This report consists of management's representations concerning the finances of the City of Dublin, Georgia. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the City of Dublin, Georgia has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the City of Dublin, Georgia's financial statements in conformity with GAAP. The City's management is responsible for establishing a system of internal controls to: safeguard City assets from loss or unauthorized use or disposal, provide reliable financial records for preparing internal and external financial reports and for maintaining accountability over City assets and to ensure compliance with applicable Federal and State laws and regulations related to programs for which the City receives assistance. No system of internal control can be perfect. Therefore internal controls are meant to provide "reasonable assurance". Reasonable assurance means: the cost of internal controls should not exceed the benefits likely to be derived from that control and the costs and benefits of internal controls are subject to estimates and judgments by management. We believe the City's internal controls reasonably safeguard assets, assure that financial transactions are properly recorded and reported and ensure compliance with Federal and State laws and regulations. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The City of Dublin, Georgia's financial statements have been audited by Nichols, Cauley and Associates, LLC, a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the City of Dublin, Georgia for the fiscal year ended June 30, 2014, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. The independent auditor concluded based upon the audit, that there was a reasonable basis for rendering an unqualified opinion that the City of Dublin, Georgia's financial statements for the fiscal year ended June 30, 2014, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

GAAP require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The City of Dublin, Georgia's MD&A can be found immediately following the report of the independent auditors.

## **Profile of the Government**

The City of Dublin, Georgia was incorporated in 1812 under provisions of an act of the General Assembly of Georgia. The City operates under a mayor-council form of government and provides the full range of services contemplated by statute or charter. Policy-making and legislative authority are vested in the governing council consisting of the mayor and seven other members. The governing council is responsible, among other things, for passing ordinances, adopting the budget, appointing committees, and hiring the City's manager and attorney. The City's manager is responsible for carrying out the policies and ordinances of the governing council, for overseeing the day-to-day operations of the City, and for appointing the heads of the various departments. The council is elected on a non-partisan basis. Council members serve four-year staggered terms, with an election held every two years. The mayor is also elected to serve a four-year term. Four of the council members are elected by district. The mayor and the three remaining council members are elected at large. The City Clerk is appointed by the mayor and council, and is also the Finance Director and Election Superintendent. The mayor and council also appoint the City Judge and City Attorney. The population of Dublin is approximately 16,000 people and this number has remained stable over the last few decades.

The City of Dublin, Georgia provides a full range of services. These include police and fire protection, construction and maintenance of highways and streets, sanitation services, public infrastructure improvements, planning and zoning, general administrative services, water and sewer systems, a natural gas system, telecommunications services and parks and recreation services.

The annual budget serves as the foundation for the City of Dublin, Georgia's financial planning and control. All departments of the City are to submit requests for appropriation to the government's manager so that a budget may be prepared. The budget is prepared by fund, function and activity, and includes information on the past year, current year estimates and requested appropriations for the next fiscal year.

Before May 15, the proposed budget is presented to the governing council for review. The governing council holds public hearings and may add to, subtract from or change appropriations, but may not change the form of the budget. Any changes in the budget must be within the revenues and reserves estimated as available by the City manager or the revenue estimates must be changed by an affirmative vote of a majority of the governing council.

# **Factors Affecting Financial Condition**

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the City operates.

*LOCAL ECONOMY.* The City of Dublin, Georgia currently enjoys a favorable economic environment. With positive equity balances in all fund types, as well as stable property taxes, steady retail sales growth and investment grade bond ratings, the City of Dublin remains financially sound, well run and efficient.

The level of services provided by the City of Dublin in the community is among the highest in the State of Georgia. The millage rate at 6.393 mills remains one of the lowest among municipalities in Georgia even as the demands for services continue to grow.

The City of Dublin is committed to redevelopment of the inner city and to providing services for the expansion and protection of investments that have been made in the past and maintaining the cost of City services at the lowest possible rate.

Dublin has embraced the larger Kroger Store and shopping center. The store is a proto-type for nine other Georgia stores that follow a "one stop shop" concept. The 75,000 square foot store includes a pharmacy, a deli, expanded floral shop and a Starbucks Coffee Shop. There is also an outside fuel center. The store has over 210 employees, which is an increase of 120 over the old smaller store. The shopping center has spaces for (15) fifteen retail businesses, most of which are occupied, by retail stores and restaurants.

The City of Dublin is a continuously expanding regional shopping center. There are new restaurants, motels and retail developments. The Wal-Mart Super Center, on Highway 80 near its intersection with the Highway 441 bypass, employs a total of 450 employees and replaced the old smaller Wal-Mart store. Retail activities continue to increase purchasing power in our area and provide more economic thrust, in addition to the actual number of jobs created.

The \$7.2 million dollar Dubose Porter Regional Business and Industry Training Center, located at the Oconee Fall Line Technical College, seats up to 1000 people at tables and up to 1400 in row seating. The YKK lecture auditorium utilizes the latest technology available for presentations. The City of Dublin has extended water and sewer service to the Oconee Fall Line Technical College, which has completed construction of a new \$13.7 million, 88000 square feet Allied Health Facility building. This facility enables the college to expand its health care training and includes a library, laboratories and classrooms for cosmetology, physical and life sciences and veterinary technology. This allows the college to expand course offerings to include new programs such as surgical technology and additional LPN classes. This facility is another great asset to our academic community.

The City of Dublin has financed and constructed a fiber optic telecommunications ring around Dublin at a cost in excess of \$3,000,000. The network is a one Gigabit Ethernet solution with a 96 fiber redundant ring designed to connect various government, education and business facilities to the World Wide Web. This enhances economic development potential by providing Dublin with state of the art communication availability through high-speed internet connectivity. All government and educational facilities have been connected and the service is being offered to the business community on a limited scale. The City of Dublin has acquired the necessary Certificates of Authority through the Georgia Public Service Commission to allow the use of other technology for future enhancements.

The City of Dublin was awarded grant funding through the Georgia Technology Authority's "Wireless Communities Georgia" program. Dublin received funds in the amount of \$478,000, which included the city's match. The program was designed to provide wireless broadband access to areas of Georgia. Of the six cities awarded funds in the first phase of the project, Dublin was one of two that decided to provide the wireless free of charge wherever connection is possible by utilizing the City's fiber optic network and bandwidth capabilities already in place. Other cities had to partner with a bandwidth or telecommunications provider and thus charge for the service. Dublin's goal is to get 45% coverage of the city limits, focusing on main thru-fares and public areas in the city limits. City employees and services utilize the wireless service for public safety and time saving measures in their day-to-day responsibilities.

The City of Dublin continues its role as a regional medical center with on-going improvements in the quantity and quality of medical care. The Carl Vinson Medical Center has a new outpatient clinic and a recently completed Alzheimer's Wards. The Medical Center has added to its existing medical office building. A cancer treatment center provides the latest technological advances in the treatment of various forms of cancer. Fairview Park Hospital has an Angio Suite to house the state-of-the-art technology for diagnosis and therapy of vascular disease. Our Public Health Department has become more active in

community events and projects. A new Public Health Department facility is being constructed to better serve our citizens.

Dublin Internal Medicine completed their expansion of the Dublin Diagnostic Center, Dublin's first comprehensive diagnostic care center. This multimillion dollar building houses a full array of diagnostic services such as, magnetic resonance imaging, cardiac echo, and general nuclear medicine, all in one central location. Up to five (5) additional physicians have been added to the staff. Also included in this expansion is a gastroenterology and endoscopy center on an adjoining site.

A new multi-million dollar "lifestyle" community, Moore Station Village, has been completed. This new development offers single-family homes and a community activity clubhouse and many recreational facilities. Townhouses and apartments are also being constructed. An assisted living facility, The Benton House, is also nearby. Because of the excellent medical facilities and medical care available, Dublin has become a desirable retirement community. There have been new assisted living and long term care centers planned and completed recently. These new residents and their support groups further enhance our growing retail, commercial and residential growth.

**LONG-TERM FINANCIAL PLANNING.** Highway 80 (Veteran's Blvd), our western gateway, has been expanded to five-lanes to the Old Macon Road. Annexation and growth along this corridor have created a demand for the extension of city utilities. The City has extended water and sewer infrastructure west to the airport. Our Development Authority has acquired 96 acres of land adjoining the airport to be utilized as an airport industrial park which is also along the new 441 perimeter road allowing for better transportation access along with the excellent access to the airport property.

Highway 80 West has benefitted from the 441 by-pass road, which the Department of Transportation completed in 2012. There has been increased development at the intersection of US 80 and the 441 by-pass areas. We are serving this development with water, sewer and natural gas in order to meet the anticipated demand since there are new residential and commercial developments being constructed in these areas.

The Department of Transportation has realigned the I-16 and 441 South interchange to enhance its use. New lighting has been installed to entice more travelers to visit Dublin. The Dublin Laurens County Recreation Authority has been operating a Tourist Welcome Center in this area to promote Dublin's industry and services to travelers. A full time Tourism Director has been hired to enhance the tourism promotion at the Center. Since opening, over 250,000 tourists have visited the center which is open Monday through Saturday. New development in this area includes a 3-story motel, a national steak house restaurant and other retail businesses.

YKK AP America has completed an \$80 million Phase I 350,000 square foot expansion of their operations, which doubled their production capacity and added 54 new jobs. YKK held a groundbreaking for Phase 2 of this continued expansion. The 198,000 square foot building contains a third nine inch extension press and the second electrostatic paint system as well as a packing and shipping area to support growth in customer service. The next three phases will be completed in the coming years which should add new employees and long term job possibilities. YKK AP's highly automated, state of the art Dublin plant manufactures doors, windows and curtain wall systems which are shipped worldwide.

Flexsteel Industries, a manufacturer of recliners and motion furniture, completed a new green initiative designed to increase energy efficiency and was awarded several honors for their efforts. This was a significant investment of time and capital by Flexsteel to make their plant more environmentally friendly and saving energy costs and waste. In addition, several new lines have been located in Dublin by the company, and the Dublin location is now the largest plant of the Flexsteel locations.

Farmers Furniture is headquartered in Dublin and has over 140 stores across the southeastern United States. The current warehouse located on US 441 South has over 200,000 feet of racked storage. They recently acquired the former Basset facility to further expand their operations and maintain the Dublin location. With this expansion, there are now more than 100 employees at the distribution center.

The Dublin-Laurens County Development Authority acquired 250 acres of industrial property adjacent to Highway 257 and Interstate 16 for use as an industrial park. The Authority has done site work, constructed an access road for industrial use and made other improvements to aide in marketing the site to manufacturing and distribution companies. All of this preparation has now resulted in the locating of Erdrich Unform Technik, LLC on a site within this industrial park. Erdrich, a German based automotive supplier has constructed a state of the art stamping facility and will create 178 jobs and has invested \$39 million in the construction of the new plant. The new plant was completed in May of 2013 and hiring of employees continues at this time.

Best Buy, Inc. continues to be a great employer for the City of Dublin. Best Buy, a leading retailer of home electronics and appliances, built a 700,000 square foot distribution center at a cost of over \$40,000,000. This center distributes to sixty Best Buy stores in Georgia, Florida, North Carolina, South Carolina, and Tennessee. In addition, the facility now ships product to Puerto Rico. They currently have over two hundred employees. As a result of the Best Buy project, the Georgia Department of Transportation widened Highway 257 from Interstate Highway 16 to Industrial Boulevard from a two-lane to a five-lane highway to facilitate even more growth in this corridor. The second phase of this project was the construction of a new interchange at I-16 and Highway 257 including wider ramps and a new bridge over the interstate. This \$14 million new construction created another major business corridor. The expansion of Highway 257 allows the roadway to accommodate the increased traffic along the highway as new industries are attracted to the Dublin area.

Since constructing a new \$30 million, 600,000 square foot distribution center in Dublin on a 136 acre site on Highway 257 near the present Best Buy facility, Fred's Distribution Center has created over 200 jobs and may increase to as many as 400. This center serves stores in Alabama, Georgia, Florida and North and South Carolina from its strategic location in Dublin. The facility can be expanded as growth dictates to about 1 million square feet. The City has extended water and sewer infrastructure to accommodate the new facility and the Highway 257/I-16 interchange. In addition, Georgia Highways 257 and 19 have been annexed by the City to the south side of the I-16 interchange. Love's Travel Stops and Country Stores, Inc. is located at the 257 interchange.

In March of 2012, Denmark-based Dinex Group announced plans to open a manufacturing plant in the former Eldorado Stone building in Dublin. The automotive emissions control and exhaust manufacturer will create 250 jobs and invest \$15 million in this operation. The Dinex Dublin facility is its first in the United States.

Hi-Tek Rations, an international supplier of pet food, has expanded its facility in Dublin with the investment of nearly \$2 million dollars and the creation of 35 new jobs. The company has been growing and has the opportunity for more expansion in the future.

A new building for our current Big Lots Store was constructed in order for a Home Depot Store to be constructed on Veterans Boulevard. The Home Depot Store is 133,000 square feet and cost approximately \$10,000,000. This store and a new T.J. Max Store at the Dublin Mall, have added to our growing retail strength and help to maintain our reputation as a regional retail center.

The City of Dublin and Laurens County continue to sponsor the Main Street Dublin-Downtown Development Authority, under the guidance of a full time director. The Main Street Program has proven of great benefit to our downtown business and professional district. Our downtown merchants participate in many events each year.

An \$871,362 Transportation Enhancement Activity (TEA) grant received from the Department of Transportation has funded the Emerald Pathways project, which integrates aesthetic and safety improvements for the downtown area and encourages and accommodates pedestrian and non-vehicular traffic. This project enhances the appeal of downtown to the local citizens, business owners and tourists. Improvements include the construction of improved sidewalks and crosswalks, extensive landscaping, benches, trash receptacles, bicycle racks, a beautiful fountain, a street clock, and the installation of appropriate signage. The construction and designation of bicycle and pedestrian pathways and a downtown streetscape along Jackson and Jefferson Streets which included the relocating of overhead electric wires to underground completed this project. These improvements have sparked a new interest in downtown improvements by both the public and private sectors.

A retail and residential revitalization in the downtown commercial district is taking place. A local entrepreneur purchased and remodeled several vacant buildings and opened new restaurants, shops and created loft apartments on floors above the retail spaces.

The City of Dublin has implemented the renovation of the major portion of one block in the downtown area for various public purposes. The City, with public funds and private contributions, renovated the former Martin Theater building as a community and performing arts center renamed Theatre Dublin. Adjacent to this facility is the Fred Roberts Hotel Building, which has been been renovated as condominiums and retail space. As part of our Bicentennial Year activities, the City and the Downtown Development Authority has constructed a "Bicentennial Plaza" in front of the Fred Roberts building and Theater Dublin. It was completed in February 2014.

Because of all of the new development, the City and the Downtown Development Authority purchased a parcel of land on Madison Street for a parking lot. Two buildings were demolished, and after resurfacing was completed, a total of 54 new parking spaces were added to better serve downtown business customers.

Morris Bank built a new bank on Jackson Street to replace their old building. The two-story 40,000 square foot bank has become a focal point in downtown Dublin. The bank also constructed a park on the former bank site beside the new bank.

The City continues the Southside Revitalization effort to bring new development and economic vitality to this area of Dublin. A Southside Police Precinct Sub-Station in the Katie Dudley Housing area improved police presence and community policing efforts in the south side neighborhood. The Housing Authority renovated 17 units in a section of the housing project this year and will renovate additional units in the near future. A Southside Revitalization Committee is operating, and more projects are forthcoming from their efforts.

The City received \$500,000 Community Development Block Grants, which were used to improve fire protection and renovate water lines in the Scottsville and Ray Street areas of the City. These improvements serve a predominately low to moderate income neighborhood and are part of our continuing efforts to improve our entire city.

The City purchased the old Mindis Recycling site from the Downtown Development Authority and constructed a \$2,700,000 Police Department and Courtroom facility on the property. The Police Department and City Court have moved from the City Hall. This move resulted in more efficient use of both buildings as well as increased parking facilities and easier citizen access to these buildings. The

relocation also enhances police presence in this area of the city and makes it more attractive to future development. A Dollar General Store is planned to be built across the street early next year.

The Special Purpose Local Option Sales Tax (SPLOST) has provided funding for a Farmers Market located directly behind the Theater Dublin. This continues our emphasis on downtown and Southside development. Various resurfacing and road and intersection improvements are also being completed with the SPLOST funds. A new \$1.3 million dollar Georgia State Patrol headquarters building on Southern Pines Road beside the Law Enforcement Center and a new Department of Drivers Services facility were constructed and funded with S.P.L.O.S.T. funds. Having these facilities in our community serves as a major destination point for people seeking these state services and brings more people to our community to shop and boost our local economy.

Dublin Safe Routes to School (SRTS) project in the amount of \$328,000 is being used to improve bicycle and pedestrian safety in the Susie Dasher and Saxon Heights elementary school neighborhoods. New sidewalks and crosswalks will be added in 2014.

Two Street scape projects, both funded by Federal Grants in the amount of \$399,951 each, have been completed. The Bellevue Streetscape Project provided ADA access improvements, sidewalk renovations and streetscape enhancements including minor tree plantings along Bellevue Avenue from Church Street to Lancaster Street. The Southside Gateway and Streetscape Project involved access improvements, sidewalk renovation, traffic signal installation and streetscape enhancements, including street tree plantings and pedestrian amenities at the intersection of U.S. 441 and U.S. 19 highways, extending southward along U.S. 19.

The Simmons Street Community Development Block Grant Project in the amount of \$200,066 has improved fire protection and domestic water services on Simmons Street and Cullens Street. This project involved installation of new fire hydrants, water lines and service meter connections.

In addition, two large sewer projects are being funded through the Georgia Environmental Facilities Authority, Clean Water Revolving Loan Program. The downtown sewer rehabilitation project in the amount of \$1,154,300, involves the rehabilitation and/or repair of manhole structures and gravity sewer main in the downtown area. The Dublin Branch sewer relocation project in the amount of \$880,421, involves the rehabilitation and/or relocation of existing parallel sanitary sewer lines along the Dublin Branch Corridor. The total economic impact of these mostly grant and loan funded projects is in excess of \$3,300,000 and provides much needed improvements to the infrastructure of Dublin. These projects will be completed by late 2014.

The Laurens County Board of Commissioners purchased most of a city block of land on the north side of the Courthouse and built a Courthouse Annex at a cost of \$2,000,000. The building houses the Tax Commissioners' and Tax Assessors' and Board of Registrars' Offices and eliminates the crowded conditions in the Courthouse. The demolition of the old structures and completion of the new annex provides additional parking in the downtown area and makes government services more convenient to the public.

The Department of Natural Resources Historic Preservation Division has named the commercial district of Downtown Dublin to the National Register of Historic Places and downtown is known as the "Dublin National Register Historic District." The Stubbs Park/Stonewall Street neighborhood has also been listed. There has been a renewed interest in renovations of structures in the neighborhoods since receiving these designations. There is a very active neighborhood association that continues to look for ways to improve the neighborhoods.

The City, at the request of the Georgia Department of Transportation, has extended water and sewer lines to the rest areas on I-16. The Department of Transportation reimbursed the City for 100 percent of construction and engineering costs of the project which extended the water distribution and wastewater collection system to serve the rest areas along Interstate 16 west of Dublin. This expansion allowed the City to extend utility services south of Interstate 16 at the Highway 257 Interchange, which opened both sides of the interchange for commercial development.

Southern Pines Regional Recreation Complex was expanded to include a new Agricultural Expo Center. This million dollar open air multiuse arena is a venue for a variety of events, including animal and livestock shows, rodeos, car shows and concerts. In addition, a "Splash Pad" was constructed at a cost of over \$240,000 on the complex site. This water park facility attracts more visitors to the Dublin area.

**RELEVANT FINANCIAL POLICIES.** The City of Dublin financial policy concerning the budgeting of one time revenue resources such as grants and S.P.L.O.S.T. revenues is to not budget them for reoccurring operating purposes. These funds must be spent only for capital items and capital improvements. In March 2011, voters approved a continuation of the current S.P.L.O.S.T. to be used for one-time capital improvement projects. These projects include areas of transportation and drainage, the water and sewer system, city facilities, capital equipment purchases, and gas system improvements. Approximately \$16 million of estimated revenue will be collected over the six-year period.

AWARDS AND ACKNOWLEDGEMENTS. The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Dublin, Georgia for its comprehensive annual financial report (CAFR) for the fiscal year ended June 30, 2013. This was the twenty-sixth consecutive year that the City of Dublin has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

The preparation of this report on a timely basis has been accomplished with the efficient and dedicated services of the entire staff of the Finance Department. We express our appreciation to all members of the Department who assisted and contributed to its preparation. We thank the Mayor and City Council for their interest and support in planning and conducting the financial operations of the City in a responsible and progressive manner.

Respectfully submitted,

P.C.

# **INDEPENDENT AUDITOR'S REPORT**

To the Honorable Mayor and Council City of Dublin, Georgia

# **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the businesstype activities, the aggregate discretely presented component units, each major fund and the aggregate remaining fund information of City of Dublin, Georgia, as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Dublin-Laurens County Recreation Authority, which represents 85 percent, 86 percent, and 82 percent, respectively, of the assets, net position, and revenues of the component units. Those statements were audited by other auditors whose report thereon has been furnished to us, and our opinion, insofar as it relates to the amounts included for the Dublin-Laurens County Recreation Authority, is based solely on the report of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

REPLY TO: 1300 Bellevue Avenue Dublin, Georgia 31021-4152 478-275-1163 FAX 478-275-1178 dublin@nicholscauley.com Honorable Mayor and Council City of Dublin, Georgia Page 2

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risk of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

# Opinions

In our opinion, based on our audit report and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund and the aggregate remaining fund information of the City of Dublin, Georgia, as of June 30, 2014, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

# **Other Matters**

# Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 15 through 27, the schedule of funding progress for the Georgia Municipal Employees Benefit System on page 70, the budgetary comparison information on pages 71 through 72, and the notes to required supplementary information on page 73, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Honorable Mayor and Council City of Dublin, Georgia Page 3

#### **Other Information**

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Dublin, Georgia's basic financial statements. The introductory section, combining and individual nonmajor fund statements and schedules of expenditures of special purpose local option sales tax proceeds, statistical section, and the schedule of expenditures of federal awards, as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund statements, the schedules of expenditures of special purpose local option sales tax proceeds, and the Schedule of Expenditures of Federal Awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America by us and the other auditors. In our opinion, based on our audit, the procedures performed as described above, and the report of the other auditors, the combining and individual nonmajor fund statements, the schedules of expenditures of special purpose local option sales tax proceeds and the Schedule of Expenditures of Federal Awards are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

#### **Other Reporting Required by Government Auditing Standards**

In accordance with *Government Auditing Standards*, we have also issued our report dated December 29, 2014, on our consideration of the City of Dublin, Georgia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grants agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of the audit performed in accordance with *Government Auditing Standards* in considering City of Dublin, Georgia's internal control over financial reporting and compliance.

Aichals, Cauley + associates, LLC

Dublin, Georgia December 29, 2014

Management of the City of Dublin, Georgia (City) provides this Management's Discussion and Analysis of the City's Comprehensive Annual Financial Report (CAFR) for readers of the City's financial statements. This narrative overview and analysis of the financial activities of the City of Dublin, Georgia is for the fiscal year ended June 30, 2014. We encourage readers to consider this information in conjunction with the additional information that is furnished in the letter of transmittal, which can be found preceding this narrative, and with the City's financial statements which follow.

#### FINANCIAL HIGHLIGHTS - PRIMARY GOVERNMENT

#### **Government-Wide Highlights:**

Net position - The assets of the City exceeded its liabilities at fiscal year ending June 30, 2014 by \$76,595,960 (presented as "net position"). Of this amount, \$22,741,285 was reported as "unrestricted net position". Unrestricted net position represent the amount available to be used to meet the City's ongoing obligations to citizens and creditors.

Changes in Net position -The City's total net position increased by \$1,091,001 (a 1.4% increase) in fiscal year 2014. Net position of governmental activities decreased by \$268,293 (a 0.9% decrease) while net position of the business-type activities showed an increase of \$1,359,294 (a 3.1% increase).

#### **Fund Highlights:**

Governmental Funds - Fund Balances - As of the close of fiscal year 2014, the City's governmental funds reported a combined ending fund balance of \$9,877,155, a decrease of \$1,200,615 in comparison with the prior year. Of this total amount, \$5,802,703 represents the "unassigned fund balances". This \$5,802,703 is approximately 34.7% of the total governmental fund expenditures for the year. The primary difference in the \$268,293 decrease in net position of governmental activities compared to the \$1,200,615 decrease in fund balance of governmental funds primarily relates to the capitalization of assets partially offset by depreciation expense, resulting in difference of \$735,858.

#### **Long-term Obligations:**

The City's total long-term obligations decreased by \$548,126 (5.8%) during the current fiscal year. The key factor in this decrease was the repayment of the revenue bonds of \$420,000.

#### **OVERVIEW OF THE FINANCIAL STATEMENTS**

This discussion and analysis is intended to serve as an introduction to the City of Dublin, Georgia's basic financial statements. The City's basic financial statements include three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains additional required supplementary information (budgetary schedules) and other supplementary information (combining financial statements) in addition to the basic financial statements themselves. These components are described below:

#### **Basic Financial Statements**

The basic financial statements include two kinds of financial statements that present different views of the City -the government-wide financial statements and the fund financial statements. These financial statements also include the notes to the financial statements that explain some of the information in the financial statements and provide more detail.

#### **Government- Wide Financial Statements**

The government-wide financial statements provide a broad view of the City's operations in a manner similar to a private-sector business. The statements provide both short-term and long-term information about the City's financial position, which assists in assessing the City's economic condition at the end of the fiscal year. These are prepared using the flow of economic resources measurement focus and the accrual basis of accounting. This basically means they follow methods that are similar to those used by most businesses. They take into account all revenues and expenses connected with the fiscal year even if cash involved has not been received or paid. The government-wide financial statements include two statements:

The **Statement of Net Position** presents all of the government's assets and liabilities, with the difference between the two reported as "net position". Over time, increases or decreases in the City's net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The **Statement of Activities** presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will not result in cash flows until future fiscal periods (such as uncollected taxes and earned but unused vacation leave). This statement also presents a comparison between direct expenses and program revenues for each function of the City.

Both of the above financial statements have separate sections for three different types of City programs or activities. These three types of activities are:

**Governmental Activities** - The activities in this section are mostly supported by taxes and intergovernmental revenues. Most services normally associated with City government fall into this category, including education, general government, legal and judiciary services, recreation, natural resources, public safety and defense, regulatory services and social services.

**Business-type Activities** - These functions normally are intended to recover all or a significant portion of their costs through user fees and charges to external users of goods and services. These business-type activities of the City include the operations of the Water and Sewerage System Fund, Natural Gas System Fund, Sanitation Fund, Telecommunications Fund, and Riverview Golf Course Fund. All of these programs operate with minimal assistance from the governmental activities of the City.

**Discretely Presented Component Units** - These are operations for which the City has financial accountability but they have certain independent qualities as well. For the most part, these entities operate similar to private sector businesses and the business-type activities described above.

The City's two discretely presented major component units are:

Dublin-Laurens County Recreation Authority Main Street Dublin-Downtown Development Authority

Complete financial statements of the individual component units can be obtained from their respective administrative offices. Addresses and other additional information about the City's component units are presented in the notes to the financial statements.

The government-wide financial statements can be found immediately following this discussion and analysis.

#### Fund Financial Statements and Major Component Unit Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other city and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The fund financial statements focus on individual parts of the City government, reporting the City's operations in more detail than the government-wide statements. All of the funds of the City can be divided into three categories. It is important to note that these fund categories use different accounting approaches and should be interpreted differently. The three categories of funds are:

**Governmental Funds Financial Statements** - Most of the basic services provided by the City are financed through governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, the governmental fund financial statements focus on near-term inflows and outflows of spendable resources. They also focus on the balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the government's near-term financing requirements. This approach is known as using the flow of current financial resources measurement focus and the modified accrual basis of accounting. These statements provide a detailed short-term view of the City's finances that assists in determining whether there will be adequate financial resources available to meet the current needs of the City.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and the governmental funds are presented on the page immediately following the governmental fund financial statement.

The City has four governmental funds. The major funds are presented in a separate column, while the nonmajor funds are combined in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures, and changes in fund balances. The City's major governmental funds are the General Fund and the SPLOST Capital Projects – 2012 Fund. The City's nonmajor governmental funds are the SPLOST Capital Projects – 2006 and Hotel/Motel Tax Fund.

The basic governmental funds financial statements can be found immediately following the government-wide statements.

**Proprietary Funds Financial Statements** - These funds are used to show activities that operate more like those of commercial enterprises. Because these funds charge fees for services provided to outside customers including local governments, they are known as enterprise funds. Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. Like the government-wide financial statements use the accrual basis of accounting. There is no reconciliation needed between the government-wide financial statements for business-type activities and the proprietary fund financial statements.

The City has five enterprise funds with the major funds presented in a separate column in the proprietary funds statement of net position and in the proprietary funds statement of revenues, expenditures, and changes in fund net position. The City's major proprietary funds are - the Water and Sewerage System Fund and the Natural Gas System Fund. The City's nonmajor proprietary funds are the Sanitation Fund, Riverview Golf Course Fund and Telecommunications Fund.

The basic proprietary funds financial statements can be found immediately following the governmental fund financial statements.

**Fiduciary Fund** - This fund is used to account for resources held for the benefit of parties outside the City government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of these funds are not available to support the City's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. They use the accrual basis of accounting.

The City's fiduciary fund is the Dublin Board of Education Agency Fund (which accounts for the assets held for distribution by the City as an agent for the Dublin Board of Education).

The basic fiduciary fund's financial statement can be found immediately following the proprietary fund financial statements.

**Component Units Financial Statements** - As mentioned above, these are operations for which the City has financial accountability but they have certain independent qualities as well, and they operate similar to private-sector businesses. The government-wide financial statements present information for the component units in separate columns in the statement of net position and the statement of changes in net position.

#### Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and the fund financial statements. The notes to the financial statements can be found immediately following the fund financial statements.

#### **<u>Required Supplementary Information</u>**

The basic financial statements are followed by a section of required supplementary information concerning the City's progress in funding its obligations to provide pension benefits to its employees. It also includes a budget and actual (non-GAAP budget basis) schedule of revenues, expenditures and changes in fund balances for the General Fund.

#### **Supplementary Schedules**

This section includes the schedule of expenditures of the special purpose local option sales tax proceeds - 2006 and special purpose local option sales tax proceeds - 2012.

#### **GOVERNMENT-WIDE FINANCIAL ANALYSIS**

#### **Net Position**

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. The City's combined net position (government and business-type activities) totaled \$76,595,960 at the end of 2014, compared to \$75,504,959 at the end of the previous year.

The largest portion of the City's net position (63.0%) reflects its investment in capital assets such as land, buildings and plant, machinery and equipment and infrastructure, less any related debt used to acquire those assets that is still outstanding. The City uses its capital assets to provide services to citizens; consequentially, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the City's net position (7.3%) represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net position may be used to meet the City's ongoing obligations to citizens and creditors. Unrestricted net position of the City's (governmental and business-type) activities decreased \$1,020,421 or 4.3% from the prior year. Internally imposed designations of resources are not presented as restricted net position.

	Government	tal Activities	Business-ty	pe Activities	Total			
	2014	2013	2014	2013	2014	2013		
Current assets	\$ 11,385,439	\$ 12,729,003	\$ 19,893,753	\$ 20,342,848	\$ 31,279,192	\$ 33,071,851

#### City of Dublin, Georgia - Net Position

At the end of the current fiscal year, the City is able to report positive balances in all three categories of net position, both for the government as a whole, as well as for its separate governmental and business-type activities. The same situation held true for the prior fiscal year.

#### **Changes in Net Position**

The City's net position increased by \$1,091,001 or 1.4%. Governmental activities decreased \$268,293 while business activities increased \$1,359,294. Historically, and in fiscal year 2014, transfers are made from the Natural Gas System Fund to the General Fund to provide funds to carry out the services provided by the General Fund. Net transfers between the governmental and business-type activities for fiscal year 2014 were \$319,634 which included \$700,000 from the Natural Gas Fund to the general fund and \$380,366 from governmental activities to the business-type activities. During 2014, The City's governmental activities transferred \$380,366 in capital assets purchased with SPLOST proceeds to the following business-type activities: \$225,651 to the Water and Sewerage System Fund and \$154,715 to the Natural Gas System Fund. Approximately 18.9 percent of the City's total revenue came from taxes, while 7.6 percent resulted from grants and contributions (including federal aid). Charges for various goods and services, investment earnings, and intragovernmental items provided 73.5 percent of the total revenues.

The City's expenses cover a range of services. The largest expenses were for gas services, public safety, water and sewer services, general government, and sanitation services. In 2014, governmental activity program expenses exceeded revenues, resulting in the use of \$9,685,161 in general revenues which were comprised of \$9,079,399 (taxes), \$700,000 (transfers in), and \$17,835 (unrestricted investment earnings). Total program and general revenues from business-type activities exceeded net expenses, excluding transfers out, in 2014 by \$216,848.

Governmental activities decreased the City's net position by \$268,293 compared to a decrease of \$3,462,481 in the prior year. The key elements in this difference were a large transfer of capital assets from the governmental activities to the business-type activities in the prior year compared to \$380,366 in the current year. Business-type activities increased the City's net position by \$1,359,294. The key element was increased revenue produced from gas services. Other key elements of these changes are as follows:

#### **Governmental Activities**

The following graphs present the cost of each of the City's governmental functions programs - general government, public safety, community services, public works and buildings, and culture and recreation - as well as the program revenues generated by these activities.

- The cost of all governmental activities this year was \$15,378,577.
- However, the amount that our taxpayers paid for these activities through City taxes was \$9,079,399.
   Some of the cost was paid by:
  - Those who directly benefited from the programs \$3,281,398.
  - Other governments and organizations that subsidized certain programs with grants and contributions \$2,412,018.
  - Net transfers to the General Fund of \$700,000 from the Proprietary Funds.
- Public safety required the largest net amount of public funds after subtracting program revenue and grants and contributions. The total subsidy was \$5,870,039 in fiscal year 2014. Public safety comprised 46.09% of total expenses in 2014.
- Community services comprised 6.73% of total expenses in fiscal year 2014.
- Public works and buildings comprised 11.89% of total expenses in fiscal year 2014.
- Culture and recreation comprised 3.75% of total expenses in fiscal year 2014.
- Interest on long-term debt comprised 0.04% of total expenses in fiscal year 2014.
- General government comprised 31.50% of total expenses and reflected an increase of \$676,818 from the prior year. For every one dollar of general government expenses in fiscal year 2014, 47 cents came from charges for services to pay for the expenses and interest.

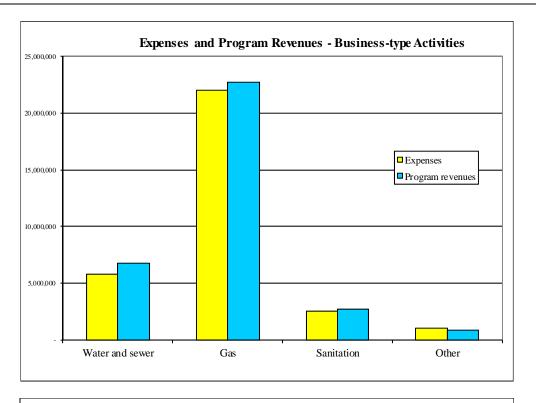

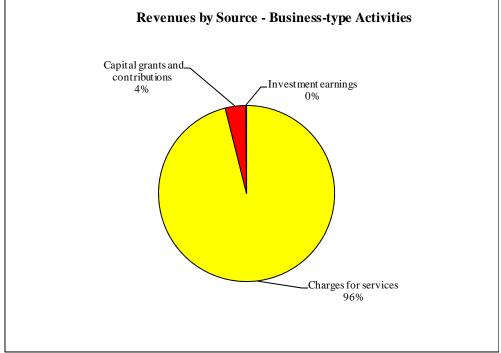

#### **Business-Type Activities**

The following graphs present the cost of each of the City's business-type activities – water and sewer, gas, sanitation, and other – as well as the program revenues generated by these activities.

- The cost of all business-type activities this year was \$31,443,360.
- Revenues generated by the gas function comprised 68.8% of program revenues for business-type activities. Water and sewer, sanitation and other comprised 20.6%, 8.2%, and 2.4%, respectively.
- Investment earnings increased by approximately \$9,454 from the prior year.

#### FINANCIAL ANALYSIS OF THE CITY'S INDIVIDUAL FUNDS

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

#### **Governmental Funds**

The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$9,877,155 a decrease of \$1,200,615 in comparison with the prior year. \$5,802,703 or 58.7% of this total amount constitutes unassigned fund balance, which is available for spending in the coming year. A portion of the fund balance is termed nonspendable to indicate that it is not available for new spending because it is reserved for inventory and prepaid items. A portion of the fund balance is termed restricted for it is to be used for debt service and capital projects. The remainder of fund balances are reserved to indicate that they are not available for new spending because they have already been committed or assigned for a variety of purposes.

The General Fund is the chief operating fund of the City. At the end of the current fiscal year, unassigned fund balance of the General Fund was \$5,802,703 while the total fund balance reached \$6,327,531. As a measure of the General Fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 43.6% of total general fund expenditures, while total fund balance represents 47.6% of that same amount.

The fund balance of the City's General Fund decreased by \$581,459 during the current fiscal year. This is a 8.4% decrease from the prior year. This decrease is primarily attributable to a decrease in intergovernmental revenues and an increase in capital expenditures offset by a decrease in debt service. At June 30, 2014, the fund balance of the City's General Fund represented 64.1% of the total governmental fund balance.

The fund balance of the City's SPLOST Capital Projects - 2012 fund decreased by \$495,990 during the current fiscal year. This is an 42.8% decrease from the prior year. This decrease is attributable to the City beginning capital projects approved in the 2012 SPLOST referendum. At June 30, 2014, the fund balance of the City's SPLOST Capital Projects - 2012 fund represented 6.7% of the total governmental fund balance.

The fund balance of the City's SPLOST Capital Projects - 2006 fund decreased by \$123,166, during the current fiscal year. This is a 4.1% decrease from the prior year. This decrease is primarily due to the City has completed collecting tax revenues and continuing to complete the projects under the 2006 SPLOST referendum. At June 30, 2014, the fund balance of the City's SPLOST Capital Projects - 2006 fund represented 29.2% of the total governmental fund balance.

#### **Proprietary Funds**

The City's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

As discussed in the business-type activities above, the City's net position increased by \$1,359,294 primarily as a result of capital contributions of capital assets from the governmental activities and an increase in demand for gas services. This resulted primarily from a \$1,228,281 increase in net position by the Water and Sewerage System Fund due to the City receiving approximately \$1.2 Million in grant revenue for infrastructure construction projects.

#### **GENERAL FUND BUDGETARY HIGHLIGHTS**

Total budgeted expenditures decreased by 0.2 % from the prior year. Actual expenditures increased approximately 2.3% from prior year. The actual excess of expenditures over revenues was funded through supplemental appropriations from available fund balance.

Large variances in the General Fund's revenues and expenditures verses budget amounts are as follows. For revenues, general property taxes were 15.9% over budget due to the new title ad valorem tax revenues which were higher than anticipated. Inspection permits were 43.6% under budget due to less construction projects as anticipated during the year. Intergovernmental other was 24.8% over budget due to receiving grants that were higher than expected. For expenditures, Community Development expenditures were 303.1% over budget due to capital expenditures for sidewalk improvements and other downtown improvements which were higher than first anticipated but were determined to continue the improvements to the downtown area.

#### CAPITAL ASSET AND DEBT ADMINISTRATION

#### Capital Assets

The City's investment in capital assets for its governmental and business-type activities as of June 30, 2014, amounts to \$133,235,795, net of accumulated depreciation of \$76,970,840 leaving a net book value of \$56,264,955. This investment in capital assets includes land, construction in progress, buildings and plant, improvements other than buildings, machinery and equipment, and infrastructure.

The City's investment in capital assets for the current fiscal year increased about 3.8% in terms of net book value. However, actual expenditures to purchase or construct capital assets were \$5,051,214 for the year. Most of this amount was used to move and construct water and gas lines as part of highway widening projects and extension of services, purchase capital equipment as well as road and other capital improvements designated by the SPLOST 2006 and 2012 funds. Depreciation charges for the year totaled \$3,032,242 Additional information on the City's capital assets can be found in Note III. H. of the notes to the financial statements of this report.

#### **Debt Administration**

At the end of the current fiscal year, the City had total bonded debt outstanding of \$5,305,000. This debt is secured solely by specified revenue sources (i.e., revenue bonds). The City's bonded debt decreased by \$420,000 as a result of current year principal payments. The City also had \$2,682,216 of debt from capital leases and notes payable, excluding interfund notes payable. This is a \$281,94 decrease over the prior year as a result of current year principal payments. Additional information relating to the City's long-term debt can be found in Note III.K. of the notes to financial statements of this report.

#### ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

- The unemployment rate for the City is currently 10.1%, which is an increase from a rate of 12.1% a year ago.
- Inflationary trends in the region compare favorably to national indices.
- The City is expecting the national economy, the Patient and Affordable Care Act, the Health Care and Education Reconciliation Act of 2010 and potential reductions in Federal spending to impact next years budget significantly.

These factors are considered by legislative leaders and management in preparing the City's budget for future years.

The City continues to have positive equity balances in all fund types, as well as stable property taxes and investment grade bond ratings, the City of Dublin remains financially sound. The City's tax rates remain low in comparison with other municipalities. The millage rate is at 6.4 mills and has remained low even though the demands for services continue to grow.

#### **REQUESTS FOR INFORMATION**

This financial report is designed to provide a general overview of the City of Dublin, Georgia's finances for all of the City's citizens, taxpayers, customers, and investors and creditors. This financial report seeks to demonstrate the City's accountability for the money it receives. Questions concerning any of the information provided in this report or requests for additional information should be addressed to: City of Dublin, Georgia, Department of Finance, P.O. Box 690, Dublin, Georgia 31040.

### CITY OF DUBLIN, GEORGIA RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES – GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED JUNE 30, 2014

Amounts reported for governmental activities in the statement of activities (page 29) are different because:	
Net change in fund balances - total governmental funds (page 32)	\$ (1,200,615)
Governmental funds report capital outlays as expenditures on the government fund type operating statement. However, in the government-wide statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.	
Depreciation expense \$ (1,074,895)	
Capital outlay 1,810,753	735,858
Revenues reported in the government-wide statement of activities that do not provide current financial resources are not reported as revenues in the fund financial reporting level. Deferred at 06/30/14 \$ 196,045 (204,024)	(7,979)
The issuance of long-term debt (e.g. bonds, leases), provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. This amount is the net effect of these differences in the treatment of long-term debt and related items.	205,068
In the statement of activities, certain operating expenses - compensated absences (vacations) - are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used (essentially the amounts actually paid). During this year, compensated absences increased by \$625.	(625)
Change in net position of governmental activities (page 29)	\$ (268,293)

### I. <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES</u>

The City of Dublin, Georgia (City) was incorporated in 1812 under the provisions of an act of the General Assembly of Georgia. The City operates under a mayor-council form of government and provides the following services as authorized by its charter; public safety (police and fire), highways and streets, sanitation, public infrastructure improvements, planning and zoning, general administrative services, water and sewer systems, a natural gas system and parks and recreation services.

The financial statements of the City have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") as applied to governmental units. The Governmental Accounting Standards Board ("GASB") is the standard-setting body for governmental accounting and financial reporting.

The most significant of the City's accounting policies are described below.

### A. <u>Reporting Entity</u>

In evaluating the City as a reporting entity, management has addressed all potential component units (traditionally separate reporting entities) for which the City may be financially accountable and, as such, should be included within the City's financial statements. The City (the primary government) is financially accountable if it appoints a voting majority of the organization's governing board and (1) it is able to impose its will on the organization or (2) there is a potential for the organization to provide specific financial burden on the City. Additionally, the primary government is required to consider other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. The financial statements are formatted to allow the user to clearly distinguish between the primary government and its component units. The component units are discretely presented.

Brief descriptions of discretely presented component units follow:

**Dublin-Laurens County Recreation Authority** - This Authority provides parks and recreation services, parkways, athletic areas and recreation facilities to the Dublin-Laurens County area. The governing board consists of seven members, three appointed by the City, three appointed by Laurens County and one jointly. The Authority is fiscally dependent upon the City because the City provides the majority of the General Fund revenues as well as the governing board members. These members approve the Authority's budget and their approval is required for the Authority to issue debt. It was agreed upon by the City and Laurens County that the City would include the Dublin-Laurens County Recreation Authority as a component unit since the City continues to share in more of the financial burden than Laurens County.

**Main Street Dublin-Downtown Development Authority** - The combination of this Authority and the organization established under the Georgia Main Street Program is to provide the financial mechanism necessary to promote the improvement and revitalization of the downtown development area. The governing board is appointed by the City Council. The Authority is fiscally dependent upon the City because the City provides the majority of the General Fund revenues.

**Component Unit Financial Statements** - A complete financial statement of the Dublin-Laurens Recreation Authority can be obtained from its administrative office at 930 Academy Avenue, Dublin, Georgia 31021

The Main Street Dublin-Downtown Development Authority does not issue separate component unit financial statements.

**Related Organizations -** The City's officials are also responsible for appointing the members of the Dublin Housing Authority Board, but the City's accountability for this organization does not extend beyond making the appointments. The City is also involved with the Laurens County Public Facilities Authority through an Intergovernmental Contract agreement regarding the 2007 Revenue Bond Issuance; however, the seven members of the Authority are not appointed by the City of Dublin, Georgia, and the City's accountability does not extend beyond those issues relating to the bond.

Governmental accounting standards require reasonable separation between the Primary Government and its discretely presented component units, both in the financial statements and in the related notes and required supplementary information. Because the discretely presented component units, although legally separate, have been and are operated as if each is part of the primary government, there are limited instances where special note, reference or separation will be required. If no separate note, reference or categorization is made, the user should assume that information presented is equally applicable.

#### B. Joint Ventures

A joint venture is a legal entity or other organization that results from a contractual agreement and that is owned, operated or governed by two or more participants as a separate and specific activity subject to joint control in which the participants retain (a) an ongoing financial interest or (b) an ongoing financial responsibility. The City participates in the following joint venture:

Altamaha Regional Commission – Under Georgia law, the City, in conjunction with other cities and counties in the region, is a member of the Heart of Georgia, Altamaha Regional Commission (RC) and is required to pay annual dues thereto. During its year ended June 30, 2014, the City paid \$16,201 in such dues. Membership in a RC is required by the Official Code of Georgia Annotated (OCGA) Section 50-8-34 which provides for the organizational structure of the RC of Georgia. The RC Board membership includes the chief elected official of each county and municipality of the area. OCGA 50-8-39.1 provides that the member governments are liable for any debts or obligations of a RC. Separate financial statements may be obtained from the Altamaha Regional Commission at 5045 Oak Street, Eastman, Georgia 31023.

#### C. <u>Basic Financial Statements</u>

The basic financial statements include both government-wide (based on the City as a whole) and fund financial statements. Both the government-wide and fund financial statements categorize activities as either governmental activities or business-type activities. Fiduciary funds and component units that are fiduciary in nature are not included in the government-wide financial statements. In the government-wide statement of net position, both the governmental and business-type activities columns (a) are presented on a consolidated basis by column, and (b) are reflected, on a full accrual, economic resource basis, which incorporates long-term assets and receivables as well as long-term debt and obligations.

The government-wide statement of activities reflects both the gross and net cost per functional category (public safety, public works, etc.), which are otherwise being supported by general government revenues (property and other taxes, certain intergovernmental revenues, fines, permits and charges, etc.). The statement of activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants. The program revenues must be directly associated with the function or a business-type activity. Program revenues include revenues from fines and forfeitures, licenses and permits fees, service assessments, and charges for services. The operating grants include operating - specific and discretionary (either operating or capital) grants while the capital grants column reflects capital-specific grants.

The net costs (by function or business-type activity) are normally covered by general revenue (property or other taxes, intergovernmental revenues, interest income, etc.).

This government-wide focus is more on the substantiality of the City as an entity and the change in aggregate financial position resulting from the activities of the fiscal period.

The fund financial statements are, in substance, very similar to the financial statements presented in the pre GASB-34 model. Emphasis here is on the major funds in either the governmental or business-type categories. Non-major funds (by category) or fund type are summarized into a single column.

The governmental funds statements in the fund financial statements are presented on a current financial resource and modified accrual basis of accounting. This is the manner in which these funds are normally budgeted. This presentation is deemed most appropriate to (a) demonstrate legal and covenant compliance, (b) demonstrate the source and use of liquid resources, and (c) demonstrate how the City's actual experience conforms to the budget or fiscal plan. Since the governmental fund statements are presented on a different measurement focus and basis of accounting than the government-wide statements' governmental column, a reconciliation is presented on the page following the statement which briefly explains the adjustments necessary to transform the fund based financial statements into the governmental column of the government-wide presentation.

The City's fiduciary fund is presented in the fund financial statements. Since by definition these assets are being held for the benefit of a third party (Dublin Board of Education) and cannot be used to finance activities or obligations of the City, these funds are not incorporated into the government-wide statements.

#### D. <u>Basis of Presentation</u>

The financial transactions of the City are recorded in individual funds. Each fund is accounted for by providing a separate set of self-balancing accounts that comprise its assets, liabilities, reserves, fund equity, revenues and expenditures/expenses. The various funds are reported by generic classification within the financial statements.

The City reports the following major governmental funds:

**General Fund** is the general operating fund of the City. It is used to account for all financial resources except those required to be accounted for in another fund.

**SPLOST Capital Projects - 2012 Fund** accounts for 1% sales tax proceeds required to be used for capital outlay for infrastructure enhancement purposes as authorized by local referendum.

The City reports the following major proprietary funds:

Water and Sewerage System Fund was established for the control of the operating revenue and expenses of the water distribution system and sewerage processing plants.

**Natural Gas System Fund** was established for control of the operating revenue and expenses of the natural gas distribution and transmission system. During FY 2014, sales to ten major customers represented approximately 64.1% of total sales by the gas fund.

Additionally, the City reports the following nonmajor governmental funds:

**SPLOST Capital Projects - 2006 Fund** accounts for 1% sales tax proceeds required to be used for capital outlay for infrastructure enhancement purposes as authorized by local referendum.

**Hotel/Motel Tax Fund** accounts for the revenues and expenditures relating to the 8% hotel/motel tax levied by the City. This 8% tax provides funds for the promotion of tourism, theater facilities, and recreational purposes as required by O.C.G.A. 48-13-51.

Additionally, the City reports the following nonmajor proprietary funds:

**Sanitation System Fund** was established for control of the operating revenues and expenses relating to garbage pickup and disposal.

**Riverview Golf Course Fund** was established for control of the operating revenues and expenses of the City's 18-hole golf course and pro shop.

**Telecommunications Fund** was established for control of the operating revenues and expenses relating to the City's fiber optic network. The Georgia Public Service Commission (the Commission) granted the City an interim certificate of authority to provide competitive local exchange telecommunications services in the State of Georgia. This interim certificate is subject to the rules, regulations and conditions established by the Commission. As of June 30, 2014, the City has not begun performing such services.

The City also reports the following fiduciary fund-

**Agency funds** are used to report resources held by the City in a purely custodial capacity (assets equal liabilities). Agency funds typically involve the receipt, temporary investment, and remittance of fiduciary resources to individuals, private organizations or other governments. The **Dublin Board of Education Agency Fund** is used to account for the collection of property tax revenues for the Dublin Board of Education.

#### Non-Current Governmental Assets/Liabilities:

GASB Statement No. 34 *Basic Financial Statements and Management Discussion and Analysis for State and Local Governments*, eliminates the presentation of Account Groups, but provides for these records to be maintained and incorporates the information into the Governmental column in the government-wide statement of net position.

#### **Internal Activity**

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between the City's water and sewer functions, gas functions, and telecommunications functions with various other functions of the government. Elimination of those charges would distort the direct costs and program revenues reported for the various functions concerned.

#### E. <u>Basis of Accounting</u>

Basis of accounting determines when transactions are recorded in the financial records on the financial statements. The government-wide financial statements, the proprietary fund financial statements, and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied.

Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, including accrued interest on general long-term debt is recognized when due, and certain compensated absences and claims and judgments are recognized when the obligations are expected to be liquidated with expendable available financial resources.

Those revenues susceptible to accrual are property taxes, interest, and charges for services. Other receipts and taxes become available when cash is received by the City and are recognized as revenue at that time.

Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other requirements have been met.

In applying the "susceptible to accrual" concept to intergovernmental revenues pursuant to GASB Statement No. 33, *Accounting and Financial Reporting for Nonexchange Transactions*, the provider should recognize liabilities and expenses and the recipient should recognize receivables and revenue when the applicable eligibility requirements including time requirements, are met. Resources transmitted before the eligibility requirements are met should, under most circumstances, be reported as advances by the provider and as unearned revenue by the recipient.

Propriety funds employ the economic resources measurement focus. Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the City's enterprise funds are charges to customers for sales and service. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

### F. Assets, Liabilities, and Net Position

1. *Cash and Investments*– The City's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition. Additionally, in accordance with GASB Statement No. 9, *Reporting Cash Flows of Proprietary and Nonexpendable Trust Funds*, each fund's equity in the City's investment pool is considered to be a cash equivalent since the funds can deposit or effectively withdraw cash at any time without prior notice or penalty.

State statutes authorize the City to invest in obligations of the U.S. Treasury, commercial paper, corporate bonds, repurchase agreements and the City's investment pool.

Investments are reflected following the guidance for investment valuations provided by GASB Statement No. 31, Accounting and Financial Reporting for Certain Investments and for External Investment Pools. Investments in non-negotiable certificates of deposit are stated using a costbased measure. The City invests in "Georgia Fund 1" which was created by O.C.G.A. 36-83-8. The fund is a stable net asset value investment pool that follows Standard and Poor's criteria for AAAm rated money market funds. However, "Georgia Fund 1" operates in a manner consistent with Rule 2a-7 of the Investment Company Act of 1940 and is considered to be a 2a-7 like pool. Accordingly, the City's investment in the pool has been determined based on the pool's share price. The pool is not registered with the SEC as an investment company. "Georgia Fund 1" is the combined state general fund and local government investment pool and is managed by the Office of the State Treasurer. The pool's primary objectives are safety of capital, investment income, liquidity and diversification while maintaining principal (\$1.00 per share value). Net asset value is calculated weekly to ensure stability. The pool distributes earnings (net of management fees) on a monthly basis and determines participant's shares sold and redeemed based on \$1.00 per share. Investments in "Georgia Fund 1" are directed toward short-term instruments such as U.S. Treasury obligations, securities issued or guaranteed as to principal and interest by the U.S. Government, its agencies or instrumentalities, banker's acceptances and repurchase agreements. The weighted average maturity of "Georgia Fund 1" may not exceed 60 days.

The City also has certain investments in Certificates of Deposit. These investments carry a fixed interest rate and have maturities of 13 months or less.

- 2. Short-term Interfund Receivables/Payables During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. The purpose of the interfund balances is to account for those transactions that have not been settled as of the financial statement date. These receivables and payables are classified as "due from other funds" or "due to other funds" on the respective fund's balance sheet and as internal balances on the statement of net position. All interfund balances shown are expected to be settled within one year.
- **3.** Accounts Receivable and Taxes Receivable Accounts receivable and taxes receivable, are shown net of an allowance for uncollectible accounts. The allowance for general government accounts receivable is derived from the age of the individual receivable with age categories ranging from 30 days past due to five years past due, and applicable uncollectible percentages ranging from 3% to 100% of the accounts receivable in that category.

Utility service accounts receivable reported in the enterprise funds is reported net of an allowance for uncollectible amounts. The uncollectible amounts are based on collection experience and a review of the status of existing receivables.

- 4. *Interfund Transactions* The City has two types of interfund transactions:
  - Services rendered transactions are accounted for as revenues and expenditures in the funds involved.
  - Operating appropriations/subsidies are accounted for as transfers in the funds involved.

Intrafund transfers, except interfund services provided and used and reimbursements, are reported as transfers in or out in the funds involved as other financing sources. However, as a general rule recorded intrafund revenues and expenditures have been eliminated in the GAAP-basis government wide financial statements.

- **5.** *Prepaid Items* Payments made to vendors for services that will benefit periods beyond June 30, 2014, are recorded as prepaid items.
- **6.** *Unbilled Receivables* The City uses cyclical cut-off periods for utility services in the Enterprise Funds. Utility services consumed by customers between the fiscal year cut-off date and the billing date result in unbilled accounts receivable. These unbilled receivables are not recorded at June 30, 2014. Such treatment is consistent with industry practices.
- 7. *Inventories* Inventories are valued at cost, which approximates market, using the first in/first out method. The consumption method is used to account for inventories of the City. Natural gas inventories are valued at the lower of weighted average costs or market.
- 8. *Restricted Assets* Restricted assets are amounts in governmental funds as provided for by special revenue bond resolutions and in enterprise funds as provided for by water and sewer bond resolutions.
- **9.** *Capital Assets* Capital assets, which include property, plant and equipment are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the City as assets with an initial individual cost of \$5,000. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

In the case of the initial capitalization of general infrastructure assets, the City chose to include all such items regardless of their acquisition date or amount. The City was able to estimate the historical cost for the initial reporting of these assets through back trending. As the City constructs or acquires additional capital assets each period, including infrastructure assets, they are capitalized and reported at historical cost. The reported value excludes normal maintenance and repairs which are essentially amounts spent in relation to capital assets that do not increase the capacity or efficiency of the item or extend its useful life beyond the original estimate. In the case of donations, the City values these capital items at the estimated fair value of the item as the date of its donation.

Major outlays for capital assets and major improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of the business-type activities is included as part of the capitalized value of the assets constructed. During the fiscal year ended June 30, 2014, there was no interest capitalized by the City's business-type activities relating to the construction of capital assets.

Depreciation on capital assets is calculated on the straight-line basis over the estimated useful lives of the respective assets as follows:

Buildings and plant	15 - 50 years
Improvements other than buildings	30 - 50 years
Machinery and equipment	5 - 10 years
Infrastructure	30 years

- **10.** *Compensated Absences* It is the City's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. There is no liability for unpaid accumulated sick leave since the City does not have a policy to pay any amounts when employees separate from service with the City. All vacation pay is accrued when incurred in the government-side and proprietary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.
- **11.** *Long-term Obligations* In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are recognized as an outflow of resources in the reporting period in which they are incurred.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received are reported as debt services expenditures.

#### **12.** Fund Equity

Fund equity at the governmental fund financial reporting level is classified as "fund balance." Fund equity for all other reporting is classified as "net position."

**Fund Balance-** Generally, fund balance represents the difference between the assets and liabilities under the current financial resources measurement focus of accounting. In the fund financial statements, governmental funds report fund balance classifications that comprise a hierarchy based primarily on the extent to which the City is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. Fund balances are classified as follows:

- **Nonspendable-** Fund balances are reported as nonspendable when amounts cannot be spent because they are either (a) not in spendable form (i.e. items that are not expected to be converted to cash) or (b) legally or contractually required to be maintained intact.
- **Restricted-** Fund balances are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the City or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

- **Committed-** Fund balances are reported as committed when they can be sued only for specific purposes pursuant to constraints imposed by formal action of the City Council through the adoption of a resolution. Only the City Council may modify or rescind the commitment.
- **Assigned-** Fund balances are reported as assigned when amounts are constrained by the City's intent to be used for specific purposes, but are neither restricted nor committed. Through resolution, the City Council has authorized the City's Chief Financial Officer to assign fund balances.
- **Unassigned-** Fund balances are reported as unassigned as the residual amount when the balances do not meet any of the above criterion. The City reports positive unassigned fund balance only in the general fund. Negative unassigned fund balances may be reported in all funds.

**Flow Assumptions**- When both restricted and unrestricted amounts of fund balance are available for use for expenditures incurred, it is the City's policy to use restricted amounts first and then unrestricted amounts as they are needed. For unrestricted amounts of fund balance, it is the City's policy to use fund balance in the following order: 1) committed, 2) assigned, 3) unassigned.

**Net Position-** Net position represent the difference between assets and liabilities in reporting which utilizes the economic resources measurement focus. Net position invested in capital assets, consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used (i.e. the amount that the City has spent) for the acquisition, construction, or improvement of those assets. Net position are reported as restricted using the same definition as used for restricted fund balance as described in the section above. All other net position are reported as unrestricted.

The City applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position are available.

#### 13. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position reports a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expense/expenditure) until then. The government has no items that qualifies for reporting in this category.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The government has only one type of item, which arises only under a modified accrual basis of accounting, that qualifies for reporting in this category. Accordingly, the item, unavailable revenue, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from two sources: property taxes and special assessments. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

14. *Management Estimates* - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the period. Actual results could differ from those estimates.

#### II. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

#### A. <u>Budget Policy</u>

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all governmental funds except the SPLOST Capital Projects - 2006 Fund and the SPLOST Capital Projects - 2012 Fund, which adopt a project-length budget. On or before the last Friday in February of each year, the departments of the City's General Fund submit requests for appropriation to the City's manager so that a budget may be prepared. The budget is prepared by fund, function and activity, and includes information on the past year, current year estimates and requested appropriations for the next fiscal year.

Before May 15, the proposed budget is presented to the City's Council for review. The City's Council holds public hearings and may add to, subtract from or change appropriations, but may not change the form of the budget. Any changes in the budget must be within the revenues and reserves estimated as available by the City's manager or the revenue estimates must be changed by an affirmative vote of a majority of the City's Council. The original appropriations were not amended during the year ended June 30, 2014.

#### B. <u>Component Units</u>

The Dublin Parks and Recreation Board is required by the City's code to prepare an annual operating budget for all governmental fund types. The budget is prepared and submitted by the Administrator to the Board for approval. The approved budget is then submitted to the Mayor and Council for their consideration prior to the commencement of the ensuing fiscal year.

The budget of the Dublin Parks and Recreation Board is prepared on a generally accepted accounting principles basis. Budgets for the year ended June 30, 2014 were not prepared for the Main Street Dublin-Downtown Development Authority.

### C. <u>Excess of Expenditures Over Appropriations in Individual Funds</u>

The individual departments which had expenditures in excess of appropriations are as follows:

	Expenditures	Appropriations	Variance
GENERAL FUND:			
General government - Main Street program	\$ 53,546	\$ 52,500	\$ (1,046)
General government - Tax department	133,175	129,804	(3,371)
General government - Community development	386,362	95,843	(290,519)
General government - City judge	254,344	252,694	(1,650)
Public safety - Fire department - combat	2,159,906	2,142,671	(17,235)
Community services - Cemetary	108,568	102,438	(6,130)
HOTEL/MOTEL TAX FUND:			
Hotel/Motel - Culture and recreation	576,522	530,000	(46,522)

The City incurred no material excess of expenditures over appropriations in individual funds.

### D. <u>Deficit Fund Equity</u>

The Riverview Golf Course Fund had a deficit fund balance of \$146,985 as of June 30, 2014. The fund incurred more other operating expense than anticipated. Should the budgeted revenue for the upcoming fiscal year fall short of anticipated expenses, the City plans to transfer funds from the general fund to cover the expenses.

## III. <u>DETAILED NOTES ON ALL FUNDS</u>

#### A. <u>Deposits and Investments</u>

**Deposits** – State statutes require banks holding public funds to secure these funds by FDIC insurance, securities pledged at par value, and surety bonds at face value in combined aggregate totaling not less than 110 percent of the public funds held. The City's deposits at year-end were entirely covered by federal depository insurance or by collateral held by the City's custodial banks in the City's name.

**Custodial Credit Risk** is the risk that in the event of a bank failure, the City's deposits may not be recovered. The City's cash and investment policies do not specifically address custodial credit risk.

**Investments** – The City invests excess cash in the Local Government Investment Pool of the State of Georgia (Georgia Fund 1) as well as certificates of deposits which do not qualify as cash equivalents under the City's policy.

**Interest Rate Risk** is the risk that changes in interest rates will adversely affect the value of an investment. The City does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

**Credit Risk** is the risk that an issuer or counterparty to an investment will not fulfill its obligations. The City has no investment policy that would further limit its investment choices from those authorized and listed in Note A. As of June 30, 2014 the City's investments in Georgia Fund 1 were rated AAA by Standard and Poor's.

#### Primary government cash and cash equivalents reconciliation at June 30, 2014:

	Cash and Cash	
	Equivalents	
Primary government - fund reporting level:		
Governmental funds - balance sheet	\$	17,918,209
Proprietary funds - statement of net position		4,583,520
Proprietary funds - statement of net position - restricted		398,407
Statement of fiduciary assets and liabilities		48,506
	\$	22,948,642

Investment cash equivalents comprised \$14,019,320 or about 61.1% of the total cash and cash equivalents balance of \$22,948,642 at year end. These cash equivalents, which are shown in the table below, represented monies deposited into the State Investment Pool which is essentially a money market account with one day's liquidity. With the ability to quickly access these funds should the need arise, the City feels that it has sufficient flexibility to address interest rate risk should the rates suddenly rise since there would be no real exigency to sell any of the longer term investments prior to their actual maturities.

	Fair Value		Maturities
Cash Equivalents:			
Georgia Fund 1 Investment Pool	\$	14,019,320	62 Day Weighted Average

The City's reporting entity had the following investments as of June 30, 2014:

Type of Investment	Fair Value	ment Maturity s than 1 yr
Primary government: Certificates of deposit	\$ 5,887,049	\$ 5,887,049

#### B. <u>Property Taxes</u>

Property taxes attach as an enforceable lien on property as of January 1. The City and City School System taxes are levied on July 1 and payable in two installments on August 15 and December 15. The City bills and collects its own property taxes and also taxes for the City School system. City property tax revenues are recognized when received unless collection is made within 60 days of year-end, in which case the subsequent collections are recognized at year-end. For calendar year 2013, the City levied a tax of six and 393/1000 (6.393) mills on the value of all taxable property in the City. The City School System levied a tax of nineteen and 705/100 (19.705) mills. The net digest assessed value for 2013 was \$431,146,574 on property in the City including mobile homes and vehicles.

Sources of the calendar year 2014 tax levy are as follows:

	Digest Assessed Value		Tax Levy, net of exemptions and allowances		ity School em's Portion	Cit	y's Portion
General property Public utilities Motor vehicles	\$	386,364,873 10,155,784 34,625,917	\$	10,086,055 265,117 903,910	\$ 7,613,320 200,120 682,304	\$	2,472,735 64,997 221,606
Total	\$	431,146,574	\$	11,255,082	\$ 8,495,744	\$	2,759,338

### C. <u>Receivables</u>

As of June 30, 2014 receivables consisted of taxes and charges for City services. These receivables are trade related and no specific collateral is provided for them.

Receivables consisted of the following at June 30, 2014:

	General		Proprietary		Total	
Receivables:						
Taxes	\$	190,718	\$		\$	190,718
Less allowance for uncollectible accounts		(20,000)				(20,000)
Net taxes receivable	\$	170,718	\$		\$	170,718
Accounts and other Less allowance for uncollectible accounts	\$	79,934 	\$	1,764,394 (209,000)	\$	1,844,328 (209,000)
Net accounts receivable	\$	79,934	\$	1,555,394	\$	1,635,328

### D. <u>Receivables from Other Governments</u>

General fund receivables from other governments as of June 30, 2014, are as follows:

State of Georgia - local option sales tax

\$ 224,771

#### E. Local Option Sales Tax

On January 9, 1978, the citizens of Laurens County approved, by referendum vote, a 1% local option sales tax to be effective on April 1, 1978, and to be collected by the State of Georgia and remitted to the local government divisions. Under the laws of the State of Georgia, any jurisdiction imposing the 1% local option sales tax is required to roll back ad valorem taxes each year by an amount equal to the actual sales tax received over a 12-month period. Local option sales tax for the year ended June 30, 2014, was \$2,689,086.

### F. Interfund Receivables, Payables, and Transfers

A summary of individual interfund receivable and payable balances at June 30, 2014, and a summary of fund transfers for the year then ended follows:

	Payable to							
Payable from: General Fu		eral Fund	~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~		Natural Gas System Fund		Nonmajor Proprietary Funds	
Governmental funds: General\$Nonmajor governmental funds28,5Nonmajor proprietary funds	 28,581 	\$	  290,866	\$	6,000,000  	\$	1,406,627  	
	\$	28,581	\$	290,866	\$	6,000,000	\$	1,406,627

The outstanding balance between fund results mainly from the time lag between the dates that interfund goods and services are provided or reimbursable expenditures occur, transactions are recorded in the accounting system, and payments between funds are made. The amount payable from the Hotel/Motel Tax Fund to the General Fund represents the General Fund's receivable for its portion of the Hotel/Motel tax receipts collected as of June 30, 2014, but not yet disbursed. All interfund receivables and payables are expected to be repaid within one year.

Transfers out:	General Fund
Proprietary funds:	
Natural Gas System Fund	\$ 700,000

Transfers are used to move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them; to move unrestricted revenues collected in the General Fund to finance various programs accounted for in other fund in accordance with budgetary authorizations; and to segregate money for anticipated capital projects.

In addition, the City transferred \$380,366 in capital assets purchased with SPLOST proceeds in governmental activities to the following enterprise funds recorded in business-type activities: \$225,651 to the Water and Sewerage Fund and \$154,715 to the Natural Gas System Fund.

#### G. <u>Restricted Assets</u>

Restricted assets reported in the enterprise funds are comprised of the following:

Customer deposits	\$ 398,407
Revenue bond debt service	2,691,805
	\$ 3,090,212

## H. Capital Assets

### I. <u>Capital Leases</u>

### Capital Lease Payable – Branch Bank & Trust

During fiscal year 2008, the City entered into a capital lease agreement with the Georgia Municipal Association, Inc. for the purchase of a 2007 Crimson Gladiator Ladder Truck with an original amount of \$630,000. Shortly after the initial agreement, the lease was assigned and transferred to Branch Bank & Trust. Annual payments are \$99,597 beginning June 1, 2008 and ending June 1, 2014 at an interest rate of 3.30%. The final lease payment was made in fiscal year 2014.

During fiscal year 2012, the City entered into a capital lease agreement with the Georgia Municipal Association, Inc. for the purchase of ten 2012 Chevrolet Caprice Police Cars with an original amount of \$326,001. Shortly after the initial agreement, the lease was assigned and transferred to Branch Bank & Trust. Annual payments are \$112,249 beginning September 4, 2012 and ending June 4, 2015 at an interest rate of 2.01%. The current portion of the lease due in FY 2015 is \$110,853.

The remaining annual requirement to amortize the remaining balance of \$110,853 as of June 30, 2014, including interest payments of \$1,396 is as follows:

Year Ending June 30,	P	Principal		Interest		Total Payment	
2015	\$	110,853	\$	1,396	\$	112,249	

The assets acquired through these capital leases are as follows:

	 vernmental	ess Type ivities
Machinery and equipment Less accumulated depreciation	\$ 956,001 (329,900)	\$ 
Total	\$ 626,101	\$ 

The depreciation related with the above capital leases has been included in the depreciation expense reported in Note III. H.

#### J. Note Payable (Receivable) - Other Fund

Pursuant to a resolution adopted during the year ended June 30, 1985, Council authorized the City's Natural Gas System Fund to loan up to \$800,000 to the City's Water and Sewerage System Fund for improvements to the City's water and sewerage system. The loan agreement, which was renewed in February 2005 calls for amortization of the loan to begin in July 2005, and to continue through February 2020 with monthly payments of \$5,492, including interest at the rate of 5%.

As of June 30, 1989, the authorized amount of \$800,000 had been loaned to the Water and Sewerage Fund. There was no interest accrued as of June 30, 2014. The annual requirements to amortize the remaining balance of \$325,903 to maturity, including interest of \$49,247 are as follows:

Year Ending June 30,	F	Principal	Interest		Total Payment	
2015	\$	50,760	\$	15,142	\$	65,902
2016		53,357		12,545		65,902
2017		56,086		9,816		65,902
2018		58,956		6,946		65,902
2019		61,972		3,930		65,902
2020		44,772		868		45,640
Total	\$	325,903	\$	49,247	\$	375,150

## K. Long-term Obligations

The following is a summary of changes in long-term obligations of the City for the year ended June 30, 2014:

#### **Primary Government**

	eginning Balance	A	dditions	ayments/ tirements	Ending Balance	Current Portion	ong-term Portion
Governmental activities: Capital leases payable Compensated absences	\$ 315,921	\$		\$ (205,068)	\$ 110,853	\$ 110,853	\$ 
payable	 432,514		356,910	 (356,285)	 433,139	 34,824	 398,315
Governmental activity- long-term liabilities	\$ 432,514	\$	356,910	\$ (356,285)	\$ 433,139	\$ 34,824	\$ 398,315

	Beginning Balance	Additions	Payments/ Retirements	Ending Balance	Current Portion	Long-term Portion
Business-type activities:						
Revenue bonds payable	\$5,725,000	\$	\$ (420,000)	\$ 5,305,000	\$ 440,000	\$4,865,000
Compensated absences payable	215,282	148,308	(151,844)	211,746	17,204	194,542
Notes payable-Natural Gas System	374,192		(48,289)	325,903	50,760	275,143
Notes payable-GEFA	1,078,574		(76,926)	1,001,648	80,336	921,312
Notes payable-GEFA construction period loan	1,569,715			1,569,715		1,569,715
Business-type activity- long-term liabilities	\$8,962,763	\$ 148,308	\$ (697,059)	\$ 8,414,012	\$ 588,300	\$7,825,712

Compensated absences for governmental activities are generally liquidated by the General Fund.

The notes payable – natural gas system loan is an internal loan between two business-type-funds and is eliminated on the statement of net position.

#### **Revenue Bonds Payable**

Water and Sewer Revenue Refunding and Improvement Bonds, Series 2004 - On June 1, 2004, the City issued \$8,760,000 in fixed rate revenue bonds to provide funds to currently refund and redeem all outstanding water and sewer revenue bonds of the City to acquire, construct, and equip extensions of and additions and improvements to the City's water and sewer system, fully fund the Debt Service Reserve Account, and pay the necessary costs of issuing the bonds. The revenues of the Water and Sewerage System Fund are pledged to secure these outstanding bonds

Provisions of the revenue bonds require:

- (1) monthly sinking fund contributions of the prorata share of principal and interest
- (2) a reserve account which has on deposit the highest debt service requirement in any current or future sinking fund year
- (3) a renewal and extension fund in which on January 1 of each year all but enough cash to fund two months of operating expenses will be transferred from the operating fund to the renewal and extension fund.

Series 2004 revenue bonds payable at June 30, 2014, are comprised of the following individual issue:

\$8,760,000 water and sewer bonds due in annual installments of \$315,000 to \$640,000 through January 1, 2024; interest at 4.00% to 5.7%.

Outstanding balance at June 30, 2014	\$ 5,305,000
Current portion	 440,000
Long-term portion	\$ 4,865,000

The annual requirements to amortize outstanding revenue bonds as of June 30, 2014, including interest payments of \$1,403,534 are as follows:

Year Ending June 30,	Principal		Interest	Total Payment		
2015	\$	440,000	\$ 234,187	\$	674,187	
2016		455,000	216,588		671,588	
2017		470,000	197,932		667,932	
2018		495,000	178,193		673,193	
2019		510,000	156,907		666,907	
2020-2024		2,935,000	 419,727		3,354,727	
Total	\$	5,305,000	\$ 1,403,534	\$	6,708,534	

#### Notes Payable – Georgia Environmental Facilities Authority (GEFA)

During fiscal year 2003 the City was awarded a "construction period loan" from the Georgia Environmental Facilities Authority (GEFA) for the purpose of making water and wastewater system improvements. Under the terms of the loan the City can draw a total of \$1,500,000. On June 29, 2007, the City drew down \$839,222, which was the remaining principal portion of the loan. At that time, the interest rate, which had been 4.0% per annum, was changed to 4.36% per annum and the "construction period loan" was converted to a permanent loan. Under the permanent loan, the repayment schedule will have the City pay \$13,010 on July 1, 2007 and equal installments of \$30,678 on the first day of each quarter thereafter through July 1, 2024. The current portion of the loan due in FY 2015 is \$80,336 with the long-term portion making up the remaining balance of \$921,312.

The annual requirements to amortize the remaining balance of \$1,001,648 as of June 30, 2014, including interest payments of \$243,266 are as follows:

Year Ending June 30,	Principal		I	nterest	Total Payment		
2015	\$	80,336	\$	42,375	\$	122,711	
2016		83,819		38,892		122,711	
2017		87,685		35,026		122,711	
2018		91,497		31,214		122,711	
2019		95,551		27,160		122,711	
2020-2024		562,760		68,599		631,359	
Total	\$	1,001,648	\$	243,266	\$	1,244,914	

During fiscal year 2011 the City was awarded a "construction period loan" from the Georgia Environmental Facilities Authority (GEFA) for the purpose of making improvements to the sewer collection and treatment infrastructure. Under the terms of the agreement the City can draw a total of \$2,400,000. As of June 30, 2014 the City had drawn \$1,846,723 on this loan. The agreement has a 15% debt forgiveness portion that is recorded as a capital grant which totaled \$277,008 as of June 30, 2014. The unpaid principal balance shall bear interest at a rate of 3% per annum. Accrued interest is payable monthly until the earlier of the completion date, January 1, 2012, or date loan is fully disbursed. As of June 30, 2014 the loan was not fully disbursed. When the loan is fully disbursed, principal and interest becomes payable in 239 consecutive monthly payments.

# Discretely Presented Component Units

#### **Dublin-Laurens County Recreation Authority:**

	Beginning Balance	Additions	Payments/ Retirements	Ending Balance	Current Portion	Long-term Portion	
Compensated absences payable	\$ 33,688	\$	\$ (2,574)	\$ 31,114	\$	\$ 31,114	
Notes payable-Farmers State Bank Dublin-Laurens County	638,689		(81,846)	556,843	556,843		
Recreation Authority long-term liabilities	\$ 672,377	\$	\$ (84,420)	\$ 587,957	\$ 556,843	\$ 31,114	

Note payable to Farmers State Bank is for construction at the Southern Pines Recreation Complex, interest rate is 3.5% and maturity is December 30, 2014. The note is being repaid with collections from a special purpose local option sales tax.

The annual requirements to amortize the remaining balance of \$556,843 as of June 30, 2014, are as follows:

Year Ending June 30,	F	Principal	 Interest	Tot	Total Payment		
2015	\$	556,843	\$ 	\$	556,843

The following shows the fund balances or net position of all non-major funds which had a deficit fund or net position balance at June 30, 2014.

Business type activities-	Net Position
Riverview Golf Course Fund	\$ (146,985)

### IV. OTHER INFORMATION

### A. <u>Risk Management</u>

The City is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters and worker injuries. The government has joined together with other municipalities in the State as part of the Georgia Interlocal Risk Management Agency and the Georgia Municipal Association Workers Compensation Self Insurance Fund public entity risk pools currently operating as common risk management and insurance programs for member local governments. As part of these risk pools, the City is obligated to pay all contributions and assessments as prescribed by the pools, to cooperate with the pools agents and attorneys, to follow loss reductions procedures established by the funds, and to report as promptly as possible and in being required to pay any claim of loss. The City is also to allow the pool's agents and attorneys to represent the City in investigation, settlement discussions and all levels of litigation arising out of any claim made against the City within the scope of loss protections furnished by the funds.

The funds are to defend and protect the members of the funds against liability or loss as prescribed in the member government contract and in accordance with the workers' compensation law of Georgia. The funds are to pay all cost taxed against members in any legal proceeding defended by the members, all interest accruing after entry of judgment, and all expenses incurred for investigation, negotiation or defense.

The commercial insurance provides for the transfer of risk from the City for all major programs. The City's risk is constituted by a \$1,000 deductible for each occurrence, except for worker compensation which is constituted by a \$10,000 deductible. For insured programs, there have been no significant reductions in insurance coverage nor did settlements exceed insurance coverage for any of the past three fiscal years.

Changes to the workers compensation claims liability amount for fiscal year 2014 are as follows:

	Fiscal Year Ended			
	Jun	e 30, 2014	Jun	e 30, 2013
Unpaid claims, beginning of fiscal year	\$	59,193	\$	20,000
Current year claims, premiums and changes in estimates		139,382		100,358
Claims payments		(33,906)		(61,165)
Unpaid claims, end of fiscal year	\$	164,669	\$	59,193

## B. <u>Contingencies and Other</u>

Grant contingencies - The City has received Federal and state grant monies for specific purposes that are subject to review and audit by grantor agencies. Such audits could lead to requests for reimbursement to the grantor agency for expenditures disallowed under terms of the grant. Based upon prior experience, City management believes such disallowances, if any, will not be significant.

Insurance claim contingencies - The City is exposed to various risks of loss related to illnesses or injuries to employees. Self-insured employee medical benefit claims are accrued in accordance with GASB Statement No. 10, *Accounting and Financial Reporting for Risk Financing and Related Insurance Issues.* The liability for reported claims and claims incurred but not reported an estimate of which is based on historical experience and management projections, is grouped with accounts payable and accrued costs in the financial statements.

Other contingencies and pending litigation - Certain claims, suits, and complaints arising in the ordinary course of operations have been filed or are pending against the City. In the opinion of the City's management, all such matters are adequately covered by insurance, or if not so covered are without merit or are of such kind, or involve such amounts, as would not have a significant effect on the financial position or results of operations of the City if disposed of unfavorably.

The City is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters and worker injuries for which the government carries commercial insurance. The commercial insurance provides for the transfer of risk from the City for all major programs. The City's risk is constituted by a \$1,000 deductible for each occurrence with the exception of worker's compensation claims whereby the City's risk is constituted by a \$10,000 deductible for each occurrence. For insured programs, there have been no significant reductions in insurance coverage. Settlement amounts did not exceed insurance coverage for the years ended June 30, 2014, June 30, 2013, or June 30, 2012.

### C. <u>Deferred Compensation Plan</u>

The City offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan, available to all City employees, permits them to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency.

The City has complied with changes in the laws which govern the City's deferred compensation plan, requiring all assets of the plan to be held in trust for the exclusive benefit of the participants and their beneficiaries. Formerly, the undistributed amounts which had been deferred by the plan participants were required to be reported as assets of the City. In accordance with GASB Statement No. 32 *Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans*, the City's deferred compensation plan is no longer reported within the City's Agency Fund.

## D. <u>Hotel/Motel Lodging Tax</u>

The City has levied an 8% hotel/motel tax for fiscal year end June 30, 2014. A summary of the transactions for the year ending June 30, 2014 follows:

	 Amount	Percentage of Tax Receipts
Lodging tax receipts	\$ 576,522	
Expended under contract with the Dublin – Laurens		
County Chamber of Commerce and the Tourism Resource		
Enhancement and Events Organization for promotion of tourism	(144,131)	25.00%
Expended under contract with Theatre Dublin to market		
and operate theater facilities	(72,065)	12.50%
Expended under contract with Dublin – Laurens County		
Recreation Authority for general recreation purposes	(144,131)	25.00%
Expended for promotion of tourism, operation of theater		
facilities and general recreational purposes	(216,195)	37.50%
Balance of lodging tax funds on hand at end of year	\$ 	

The City has received audit reports covering the lodging tax monies. The expenditures were for promotion of tourism, theater facilities, and recreational purposes as required by O.C.G.A. 48-13-51.

### E. <u>Pension Plan</u>

### 1. Plan Description

The City and its component units contribute to the Georgia Municipal Employees Benefit System (GMEBS), an agent multiple-employer public employee retirement system that acts as an investment and administrative agent for cities and municipalities in Georgia. The City has the right to establish and amend the benefit provisions of the plan. These amendments become effective once approved by the Board of Trustees of GMEBS. The plan is a defined benefit plan.

All full-time employees of the City, Dublin-Laurens County Recreation Authority and Main Street Dublin-Downtown Development Authority (30 hours per week) are eligible to participate in GMEBS after one (1) year of service. Benefits fully vest after ten (10) years of service. Employees who retire at or after age sixty-two (62) with five (5) years of credited service or after age fifty-five (55) with ten (10) years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 to 1.75 percent of their average monthly earnings as defined in the plan for each year of credit service. The system also provides death and disability benefits. GMEBS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to Georgia Municipal Employees Benefit System, 201 Pryor Street-SW, Atlanta, Georgia 30303-3606.

Current membership in the GMEBS is comprised of the following:

Group	January 1, 2014
Retirees and beneficiaries currently receiving benefits	109
Vested terminated employees	54
Active employees:	
Vested	153
Nonvested	67
Total membership in the plan	383

## 2. Funding Policy

The City is required to contribute based on actuarial funding policy. The annual minimum contribution is the sum of 1) the normal cost (including administrative expenses), 2) the closed level dollar amortization of the unfunded actuarial accrued liability (initial unfunded actuarial accrued liability over 30 years from 1982 and changes in the unfunded actuarial liability over 15 years for actuarial gains and losses, 20 years for plan provisions and 30 years for actuarial assumptions and cost methods from the end of the year during which such changes arise), and 3) interest on these amounts from the valuation date to the date contributions are paid (assumed monthly). Plan provisions and contribution requirements are established by state stature and may be amended by the State. The contribution requirement for the year ended December 31, 2014, was \$1,099,196, which was 12.9% of the covered payroll. This percentage was 13.3% and 12.8% of the covered payroll at December 31, 2012 and December 31, 2011, respectively. Employees are not required to contribute to the fund.

### 3. Annual Pension Cost

For 2014, the City's annual pension cost of \$1,099,196, for GMEBS was equal to the City's required and actual contributions. The required contribution was determined as part of the January 1, 2014 actuarial valuation using the entry age normal actuarial cost method. The significant actuarial assumptions used to compute the actuarial accrued liability and the annual recommended contribution of the plan meet the Actuarial Standard of Practice No. 4, *Measuring Pension Obligations*, establishing generally accepted actuarial principles and practices. The actuarial value of assets is computed by taking the sum of actuarial value at the beginning of the year and the cash flow during the year plus the assumed investment return, adjusted by 10% of the amount that the value exceeds or is less than the market value at year end. The actuarial value is adjusted, if necessary, to be within 20% of market value.

The significant actuarial assumptions used in the current valuation are:

-	rate of return on investment	7.75% per year
-	projected salary increases	3.50% per year
-	inflation rate	3.50% per year
-	cost of living adjustments	0.00% per year

The period, and related method, for amortizing the initial unfunded actuarial accrued liability is 30 years from 1982 and current changes in the unfunded actuarial accrued liability over 15 years for actuarial gains and losses, 20 years for plan provisions and 30 years for actuarial assumptions and cost methods as a level dollar amount. These amortization periods, if applicable, are closed for this plan year. The inflation rate assumption for the City of Dublin, Georgia is assumed to be the same rate as the current year cost of living adjustments.

To minimize the effect of random variations in financial market values on the recommended contribution, the GMEBS Board of Trustees adopted an asset valuation method for use in the calculation. The method for determining the actuarial value of assets is part of the GMEBS actuarial funding policy. It produces an adjusted actuarial value of assets. The smoothing technique gradually incorporates investment performance that exceeds or falls short of the expected return of 7.75%. The market value of assets is based on current values as of two months preceding the valuation date and is assumed to be current through that date.

### 4. Three Year Trend Information

Fiscal Year Ending	 nual Pension Cost (APC)	Percentage of APC Contributed	 t Pension oligation
6/30/2012	\$ 1,043,747	100%	\$ 
6/30/2013	\$ 1,161,293	100%	\$ 
6/30/2014	\$ 1,099,196	100%	\$ 

### 5. Funded Status and Funding Progress

The funded status of the plan as of January 1, 2014, was as follows:

Actuarial accrued liability (AAL)	\$ 22,269,542
Actuarial value of plan assets	 18,791,690
Unfunded actuarial accrued liability (UAAL)	\$ 3,477,852
Funded ratio (actuarial value of plan assets/AAL)	84.4%
Covered payroll (active plan members)	\$ 8,396,044
UAAL as a percentage of covered payroll	41.4%

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality and the healthcare cost trend. Amount determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress for the postemployment defined benefit plan, presented as required supplementary information immediately following the notes to the financial statements presents multi-year trend information that shows whether the actuarial value of plan assets is increasing or decreasing relative to the actuarial accrued liability for benefits over time.

### 6. Prior Period Adjustments

The City has implemented Governmental Accounting Standards Board (GASB) No. 65. With the implementation of GASB No. 65, the City determined the bond issuance costs should be expensed in accordance with the statement. The restatement resulted in changes to the beginning net position of the Water and Sewerage Fund as follows:

Net position, as previously reported	\$ 19,121,404
Recognition of bond issuance costs in accordance with GASB No. 65	 (136,944)
Net position, as restated	\$ 18,984,460

In addition, the Business-Type Activities net position as of June 30, 2014 has been restated in the government-wide financial statements as follows:

Net position, as previously reported	\$ 44,614,043
Recognition of bond issuance costs in accordance with GASB No. 65	(136,944)
Net position, as restated	\$ 44,477,099

The effect on the change in net position reported in business-type activities and the Water and Sewer Fund for the fiscal year ended June 30, 2013 was a increase of \$12,449.

#### A. Budget Data

Budgets are adopted on a basis consistent with generally accepted accounting principles except that the encumbrances are treated as budgeted expenditures in the year of the incurrence of the commitment to purchase. An annual appropriated budget is adopted for the General Fund and the Hotel/Motel Tax Fund. All annual appropriations lapse at fiscal year end.

Each fund's appropriated budget is prepared on a department level. Revenues are budgeted by source. Expenditures are budgeted by department which constitutes the legal level of control. Expenditures may not exceed appropriations at the department level. All budget revisions at this level are subject to final review by the City Council. Within these control levels, management may transfer appropriations (except for salaries) without City Council approval. No revisions to the budget were made during the year.

Encumbrances represent commitments related to unperformed contracts for goods and services. Encumbrance accounting under which purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve that portion of the applicable appropriation is utilized in the governmental funds. Encumbrances outstanding at year-end are reappropriated by the City Council. Encumbrances outstanding at year-end are reported as reservations of fund balances and do not constitute expenditures or liabilities because the commitments will be honored during the subsequent year.

Budgets are adopted in the Proprietary Funds strictly for management purposes.

### B. Budget/GAAP Reconciliation

#### **Primary Government**

Adjustments necessary to convert expenditures and the fund balances of the General Fund (a major fund) on the budget basis to the generally accepted accounting principles (GAAP) basis are as follows:

2014 Expenditures	G	eneral Fund
Budget basis expenditures Encumbrances, June 30, 2014	\$	13,314,237 (127,673)
Encumbrances, June 30, 2013		117,211
GAAP basis expenditures	\$	13,303,775
Fund Balances - End of Year		
Budgetary basis fund balance	\$	6,199,858
Encumbrances, June 30, 2014		127,673
GAAP basis fund balance	\$	6,327,531

### CITY OF DUBLIN, GEORGIA RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES - MAIN STREET DUBLIN DOWNTOWN DEVELOPMENT AUTHORITY TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED JUNE 30, 2014

Amounts reported for governmental activities in the statement of activities (page 29) are different because:

Net change in fund balance - Main Street Dublin Downtown	
Development Authority (page 96)	\$ (14,720)

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.

Depreciation expense	\$ (47,182)	
Capital outlay	 100,934	53,752

(13, 499)

The issuance of long-term debt (e.g. bonds, leases), provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. This amount is the net effect of these differences in the treatment of long-term debt and related items.

Change in net position of Main Street Dublin Downtown Development Authority (page 29) \$ 25,533

\*On July 1, 2007, the Laurens County Public Facilities Authority under authority of an Intergovernmental Contract with the City of Dublin, Georgia issued \$12,000,000 in variable rate revenue bonds to provide funds to pay the costs of acquiring, constructing, and equipping capital outlay projects for the City and pay the necessary costs of issuing the bonds. Repayment of the bonds will be made by the City through the use of special purpose local option sales tax proceeds. The bond was paid-off on July 1, 2012. During fiscal year 2008, the City entered into a capital lease agreement for the purchase of a ladder truck. Repayment of the capital lease will be made through the use of special purpose local option sales tax proceeds.

Source: City of Dublin, Georgia and Laurens County, Georgia tax records.

Note: Property in Laurens County, Georgia is reassessed once every five years on average. The City assessed property at approximately 47% of actual value until 2011 when this rate was lowered to 40%. Estimated actual taxable value is calculated by dividing taxable assessed value by this percentage. Tax rates are per \$1,000 of assessed value.

\* Excludes tax-exempt property

#### INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Honorable Mayor and Council City of Dublin, Georgia

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of City of Dublin, Georgia, as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise City of Dublin, Georgia's basic financial statements, and have issued our report thereon dated December 29, 2014. Our report includes a reference to other auditors who audited the financial statements of the Dublin-Laurens County Recreation Authority, as described in our report on City of Dublin, Georgia's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

## **Internal Control Over Financial Reporting**

In planning and performing our audit, we considered City of Dublin, Georgia's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of City of Dublin Georgia's internal control. Accordingly, we do not express an opinion on the effectiveness of City of Dublin Georgia's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

To the Honorable Mayor and Council City of Dublin, Georgia Page 2

Our consideration of internal control was for the limited purpose described in the first paragraph of this section was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies. Given these limitations, we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether City of Dublin, Georgia's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Aichels, Cauley + associates, LAC

## INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM, ON INTERNAL CONTROL OVER COMPLIANCE, AND ON SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS IN ACCORDANCE WITH OMB CIRCULAR A-133

To the Honorable Mayor and Council City of Dublin, Georgia

## Compliance

We have audited the City of Dublin's (the City) compliance with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement that could have a direct and material effect on each of the City's major federal programs for the year ended June 30, 2014. The City's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

## Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

## Auditor's Responsibility

Our responsibility is to express an opinion for each of the City's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

To the Honorable Mayor and Council City of Dublin, Georgia Page 2

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the City's compliance.

## **Opinion on Each Major Federal Program**

In our opinion, the City complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2014.

## Report on Internal Control Over Compliance

Management of the City is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the City's internal control over compliance with the requirements that could have a direct and material effect on each major federal program as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control of deficiencies, in internal control over compliance that a type of compliance with a type of compliance that a type of compliance with a type of deficiencies, in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

To the Honorable Mayor and Council City of Dublin, Georgia Page 3

### Schedule of Expenditures of Federal Awards

We have audited the financial statements of the City as of and for the year ended June 30, 2014, and have issued our report thereon dated December 29, 2014, which contained an unmodified opinion on those financial statements. Our audit was performed for the purpose of forming an opinion on the financial statements as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements and certain other procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the financial statements as a whole.

### **Restricted Use**

The report is intended solely for the use of management, the City Council, others within the City, and federal awarding agencies and pass-through entities. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance. Accordingly, this report is not suitable for any other purpose.

#### CITY OF DUBLIN, GEORGIA NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS FOR THE YEAR ENDED JUNE 30, 2014

## A. <u>General</u>

The accompanying Schedule of Expenditures of Federal Awards includes the federal grant activity of the City of Dublin, Georgia under programs of the federal government for the year ended June 30, 2014. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations.* All federal financial assistance received directly from federal agencies as well as federal financial assistance passed through other government agencies are included on the schedule.

### B. Basis of Accounting

Expenditures reported on the Schedule of Expenditures of Federal Awards are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in OMB Circular A-87, Cost Principles for States, Local, and Indian Tribal Governments. Expenditures represent only the federally funded portions of the program. City records should be consulted to determine amounts expended from non-federal sources.
